DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to a method for producing a (1-alkenyl) cyclopropane compound represented by formula (2).

Group II, claim(s) 5-11 and 12-14, drawn to a method for producing a (1-formyl)cyclopropane compound represented by formula (1) and to a (2-formyl-1-alkenyl) cyclopropane compound represented by formula (1).

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I, claim(s) 1-4, drawn to a method for producing a (1-alkenyl) cyclopropane compound represented by formula (2).

Group II, claim(s) 5-11, drawn to a method for producing a (1-formyl)cyclopropane compound represented by formula (1) and to a (2-formyl-1-alkenyl) cyclopropane compound represented by formula (1).

3. A telephone call was not made to Applicant's agent to request an oral election to the above restriction requirement, due to time constraints and the complexity of the art. MPEP 812.01.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1621

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
